1/12/2021

The FDA recently released two (2) Letters to Health Care Providers regarding COVID testing and genetic variants of SARS-CoV-2, dated January 8, 2021 [*links to full letters below*]. Both alert clinical laboratory staff and health care providers of the potential impact of viral mutations, including an emerging variant from the United Kingdom known as the B.1.1.7 variant, on authorized SARS-CoV-2 molecular tests, and that false negative results can occur with any molecular test for the detection of SARS-CoV-2 if a mutation occurs in the part of the virus's genome assessed by that test.

- [FDA Issues Alert Regarding SARS-CoV-2 Viral Mutation to Health Care Providers and Clinical Laboratory Staff](#)
- [Genetic Variants of SARS-CoV-2 May Lead to False Negative Results with Molecular Tests for Detection of SARS-CoV-2](#)

TEST IMPACT:

At this time, the FDA identified three (3) molecular tests that received EUAs whose performance could be impacted by the genetic variant, these include:

1. [Accula SARS-CoV-2 Test](#) – manufactured by Mesa Biotech, Inc.
2. [TaqPath COVID-19 Combo Kit](#) – manufactured by Thermo Fisher Scientific, Inc.
3. [Linea COVID-19 Assay Kit](#) – manufactured by Applied DNA Sciences, Inc.

The FDA is taking additional actions to ensure authorized tests remain accurate by working with test developers and conducting ongoing data analysis to evaluate all currently authorized molecular tests. The FDA believes the risk that these mutations will impact overall testing accuracy is low. The FDA encourages stakeholders to report any adverse events or suspected adverse events as well as performance issues experienced with testing.

RECOMMENDATIONS:

The FDA recommends clinical laboratory staff and health care providers who use molecular tests for the detection of SARS-CoV-2 to:

- ✓ Be aware that genetic variants of SARS-CoV-2 arise regularly and false negative test results can occur.
- ✓ Be aware that tests that use multiple genetic targets to determine a final result are less likely to be impacted by increased prevalence of genetic variants.
- ✓ Consider negative results in combination with clinical observations, patient history, and epidemiological information.
- ✓ Consider repeat testing with a different test (with different genetic targets) if COVID-19 is still suspected after receiving a negative test result.

The FDA will continue to keep health care providers and the public informed of any new information as it becomes available. As such, any new information obtained from our current testing vendors will be shared with all. Feel free to contact me if you have any questions.

12/30/20

National Supply Service Center has finalized the new procedure for requesting Abbott ID Now products for 2021, beginning the week of 1/4. The process of requesting Abbott will remain unchanged, please email Area 413s to trent.pembrook@ihs.gov by the Friday preceding the week requesting. These requests will then be submitted to Abbott where they will be filled and shipped directly to facilities. The NSSC warehouse will no longer receive a weekly allocation of Abbott products to re-package and ship. We ask that all facilities request the maximum number of kits they will use in a given week as the number of kits available to IHS will increase under the new contract.

If you have already submitted an Abbott 413 for the week of 1/4, please re-submit the request with increased numbers.

9/15/20:

Laboratory Package BDW-C and COVID-19 data submission recording is available on the RPMS Training Repository at https://ihs.cosocloud.com/rpms-tr/event/event_info.html

4/15 Guidance from HQ includes reporting to both the IHS Mapping Portal and FEMA-HHS.

9/2/20 Laboratories that are not currently reporting electronically to their state or local health department and want assistance in establishing electronic reporting can contact CDC's Emergency Operations Center, Laboratory Reporting Working Group at eoevent405@cdc.gov

Abbott ID information

Health Alert Network (HAN)

<https://cv.nmhealth.org/public-health-orders-and-executive-orders/>

NEW MEXICO HEALTH ALERT NETWORK (HAN) ALERT November 18, 2020

The purpose of this Health Alert is to ask all Medical Organizations who intend to administer COVID-19 vaccine to New Mexicans to complete CDC required provider agreements, available electronically, to be submitted to the NMDOH Immunization program. Without the completion of these forms, providers will not be able to distribute COVID-19 vaccine, even if they already administer other vaccines. Because this is a statewide campaign with the aim of offering a safe and effective COVID-19 vaccine to all New Mexicans, all providers with the capacity to store, manage and give vaccines are strongly encouraged to become a COVID-19 vaccine provider. We can't do it without you! For more information: <https://www.nmhealth.org/about/erd/ideb/ids/>

University of New Mexico Hospital (UNMH) testing: Adults can be tested in a drive-thru respiratory clinic right at UNMH, in the new part of the hospital. Children are tested in the hospital at the pediatric ER.

New Mexico Department of Health Coronavirus Hotline 1-855-600-3453

In order to ensure the best possible care, the hospital systems urge individuals with symptoms and patients scheduled for surgery whose provider has advised them to get tested before the procedure to obtain a test through a private health care provider.

Options in Albuquerque include:

In Albuquerque, NMDOH is offering COVID-19 testing at Expo NM Monday-through-Saturday mornings. Individuals who would like to be tested at this location are asked to **pre-register** at <https://cvtestreg.nmhealth.org/Default.aspx>.

Outside of Albuquerque, there are other private testing providers and NMDOH Public Health Offices are open statewide for COVID-19 testing, with some testing events held on weekends. Making an appointment is recommended but not required, and testing is open to anyone concerned about their health. All testing locations can be found on the NMDOH website at

<https://cvprovider.nmhealth.org/directory.html>.

The Department of Health and New Mexico hospital systems urge all New Mexicans to continue to assist the state in the fight against COVID-19 by wearing a mask, practicing social distancing, and maintaining good hygiene.

June 17, 2021 New Mexico Goal to get 60% of New Mexicans completely vaccinated. Hitting this goal means we get to fully reopen the state on July 1st!

A new exciting incentive program we have rolled out to help New Mexico reach it's vaccination goal, now we need your help in spreading the word. Can you commit to making at least one social media post each day for the next three days? We will give you all the tools to be part of this amazing effort!

The campaign is called Good Times are Coming Back! [This link](#) will take you to the Dropbox folder with all the campaign assets, including videos and social media post graphics you can use to share the message. If you haven't seen it already, take a look at the [Good Times Are Coming Back](#) webpage and feel the energy as the countdown meter tracks how much time we have to meet our goal.

All we are asking is for you to log into your social media accounts and make one post each day to encourage people to get vaccinated by Thursday. This is a sample of the text you can add to your social post:

Join me in being part of the solution! We're nearing our deadline of June 17th to get 60% of New Mexicans completely vaccinated. Hitting this goal means we get to fully reopen the state on July 1st! As a little extra motivation, New Mexico is offering a \$100 incentive when people complete their second shot of Pfizer or Moderna, or their first (and only) Johnson & Johnson shot by Thursday, June 17th, they will receive a \$100 incentive. Log on to vaccinenm.org to find a location today.

We have a special Trusted Voices referral link so we can witness the direct impact of our collective energy! Please embed/insert this link in any message you share. <https://vaccinenm.org?ref=TrustedVoices>. I've already embedded it into the sample above.

Our editing team is working hard to complete the most recent recordings by the end of this week. If your video has been fully edited, you can find it here, in the [DOH YouTube Trusted Voices playlist](#). Feel free to share it on your personal page. If it hasn't been posted to the DOH Facebook page yet, you will receive an email from our Social media team when it is scheduled. We have had a surge in people recording and our team is working hard to keep up!

June 1, 2021 New Mexico launches 'Vax 2 the Max' Sweepstakes

*\$10M in winnings, free N.M. travel packages, fishing licenses, state parks passes,
other prizes available to residents getting COVID-19 shots*

SANTA FE – Gov. Michelle Lujan Grisham, the New Mexico Department of Health and the New Mexico Lottery on Tuesday announced New Mexico’s [Vax 2 the Max Sweepstakes](#), a statewide vaccination incentive program that will make available \$10 million in total prize money to New Mexicans who receive their COVID-19 vaccinations, among other prizes and awards throughout the summer.

New Mexicans can register and schedule their COVID-19 vaccinations at [vaccinenm.org](#).

To be eligible for the cash sweepstakes, New Mexicans who receive or have already received their COVID-19 vaccinations must opt in to register and verify their personal and vaccination information at [vax2themaxnm.org](#).

“Getting vaccinated is the right thing to do -- for yourself, for your family and for your state,” said Gov. Lujan Grisham. “I’m excited to add a little fun to our nation-leading vaccination push. New Mexicans have sacrificed a lot over the last year. Now anyone who has stepped up to get their shots will have a chance to win some excellent prizes -- please encourage your friends and neighbors to opt in for their chance to win big and to sign up for their shots as soon as possible!”

More than 55 percent of eligible New Mexicans have completed their vaccination series, according to the Department of Health. The state is hoping to reach 60 percent this month, after which point the state will graduate out of the color-coded county-by-county risk framework, and continue to increase toward at least 70 percent as a near-term goal.

VAX 2 THE MAX CASH SWEEPSTAKES

Vaccinated New Mexicans [who have opted into the sweepstakes](#) will be part of five weekly drawings beginning in the middle of June.

Each weekly drawing will award one \$250,000 winner from [each of the state’s four public health regions](#), for a total of \$1 million in cash prizes each week. A grand prize of \$5 million will be awarded at the conclusion of the sweepstakes, in early August, to one winner drawn from the statewide pool of vaccinated New Mexicans who have opted in to the sweepstakes.

The New Mexico Lottery will conduct the cash sweepstakes drawings on behalf of the Lujan Grisham administration.

“I’m pleased the New Mexico Lottery can assist the state in making these prizes available to New Mexicans getting their shots,” said Lottery Chief Executive David M. Barden. “Our organization is deeply experienced in operating fun, fair and exciting drawings, and we look forward to a successful sweepstakes.”

OTHER PRIZES AND AWARDS AT VACCINATION SITES

Beginning next week, New Mexicans receiving their vaccinations through providers who have partnered with the state vaccinenm.org registration system will be eligible to win assorted prizes. Winners will be selected at random. Prizes include:

- One of 18 in-state “staycation” travel packages, ranging in value from \$600 to \$1,100, including four nights of accommodations and gift cards to local businesses and experiences
- Fishing and hunting licenses
- Annual day-use passes for New Mexico State Parks
- Day-use passes for New Mexico state museums and cultural sites

In addition, beginning next week, the New Mexico Lottery will bring 10 “prize wheels” to providers who have partnered with the state registration system; these sites will be spread across the state. New Mexicans receiving vaccinations at these sites will be eligible for chance to win assorted prizes, including New Mexico Lottery tickets.

RULES AND REGULATIONS

Winners will be required to produce their CDC COVID-19 Vaccination Record Card upon claiming their prize.

Non-winning entries in the Vax 2 the Max Sweepstakes will carry over from one weekly drawing to the next. An individual may not win more than one \$250,000 regional drawing. All eligible participants will be eligible for the final \$5 million drawing.

To be eligible to win a prize, individuals must be at least 18 years of age and a resident of the state of New Mexico. Employees of the New Mexico Lottery and the Office of the Governor, as well as any state employees appointed by the governor, and any members of these employees’ households, are not eligible to participate.

In order to be entered into a drawing, eligible individuals must opt in to the sweepstakes on the Vax 2 the Max website by 6:00 p.m. MST the evening before the drawing -- the full schedule for the drawings will be disseminated ahead of time.

To read the full rules and regulations, visit vax2themaxnm.org and click "[Rules](#)".

Funding for the Vax 2 the Max Sweepstakes comes from the state's portion of American Rescue Plan stimulus. The U.S. Treasury Department last week confirmed in updated guidance that states may use stimulus funding for lotteries, cash payments and other incentive programs to boost vaccination rates.

V-safe is a new voluntary smartphone-based tool that uses text messaging and web surveys to check in with people who have been vaccinated to identify potential side effects after COVID-19 vaccination. For more information on how to sign up, visit: www.cdc.gov/vsafe

Where will my vaccination information be recorded?

The vaccination provider may include your vaccination information in your state/local jurisdiction's Immunization Information System (IIS) or other designated system. This will ensure that you receive the same vaccine when you return for the second dose. For more information about IISs, visit: <https://www.cdc.gov/vaccines/programs/iis/about.html>

What is the countermeasures injury compensation program?

The Countermeasures Injury Compensation Program (CICP) is a federal program that may help pay for costs of medical care and other specific expenses of certain people who have been seriously injured by certain medicines or vaccines, including this vaccine. Generally, a claim must be submitted to the CICP within one (1) year from the date of receiving the vaccine. To learn more about this program, visit www.hrsa.gov/cicp or call 1-855-266-2427.

What is an Emergency Use Authorization (EUA)?

The United States FDA has made the Moderna COVID-19 Vaccine available under an emergency access mechanism called an EUA. The EUA is supported by a Secretary of Health and Human Services (HHS) declaration that circumstances exist to justify the emergency use of drugs and biological products during the COVID-19 pandemic.

The Moderna COVID-19 Vaccine has not undergone the same type of review as an FDA- approved or cleared product. FDA may issue an EUA when certain criteria are met, which includes that there are no adequate, approved, and available alternatives. In addition, the FDA decision is based on the totality of the scientific evidence available showing that the product may be effective to prevent COVID-19 during the COVID-19 pandemic and that the known and potential benefits of the product outweigh the known and potential risks of the product. All of these criteria must be met to allow for the product to be used during the COVID-19 pandemic.

The EUA for the Moderna COVID-19 Vaccine is in effect for the duration of the COVID-19 EUA declaration justifying emergency use of these products, unless terminated or revoked (after which the products may no longer be used).

JANSEN COVID-19 VACCINE TO PREVENT CORONAVIRUS DISEASE 2019

(COVID-19) IN INDIVIDUALS 18 YEARS OF AGE AND OLDER

This Fact Sheet contains information to help you understand the risks and benefits of receiving the Janssen COVID-19 Vaccine, which you may receive because there is currently a pandemic of COVID-19.

The Janssen COVID-19 Vaccine may prevent you from getting COVID-19. There is no U.S. Food and Drug Administration (FDA) approved vaccine to prevent COVID-19.

Read this Fact Sheet for information about the Janssen COVID-19 Vaccine. Talk to the vaccination provider if you have questions. It is your choice to receive the Janssen COVID-19 Vaccine.

The Janssen COVID-19 Vaccine is administered as a single dose, into the muscle.

The Janssen COVID-19 Vaccine may not protect everyone.

This Fact Sheet may have been updated. For the most recent Fact Sheet, please visit

Section 9: Virtual Conferences/Series/Trainings/Opportunities

<p><i>United South and Eastern Tribes is excited to announce our 3rd Annual Best Practices Conference (Virtual)!</i></p> <p>Conference offers best practices, trainings, and networking experiences for Tribal leaders, public health specialists, professional medical staff, and emergency first responders. We appreciate your participation in the 2020 Conference and seek your feedback as we prepare for 2021!</p> <p>Please visit this link https://uset.iad1.qualtrics.com/jfe/form/SV_9FU52uNLJCC8yma to complete a short (one-question) survey on the time of day that best fits your work schedule.</p> <p>To save the date and for more information on this year's virtual Best Practice conference, please follow this link https://www.usetinc.org/event/uset-best-practices-conference/2021-08-30/.</p>
<p>The IHS HQ Office of Quality is pleased to provide you access to the <i>Institute for Healthcare Improvement's (IHI) Open School</i> to support your education on basic skills on Quality Improvement and Patient Safety efforts. The courses offer convenient, online training to help your team build quality improvement, safety and leadership skills. CEU's are also available through this training more many of the healthcare fields.</p>

This activity supports the IHS Strategic Plan FY 2019-2023 Objective 2.1 Create quality improvement capability at all levels of the organization.

Quality Improvement:

- Provide training, coaching, and mentoring to ensure quality improvement and accountability of staff at all levels of the organization.
- Evaluate training efforts and staff implementation of improvements, as appropriate.

With the new IHI learning platform, there is no longer the need to enter a passcode to access courses.

In order to be added to the IHS Office of Quality (OQ) IHI Open School Roster you must have on the IHI.ORG profile that is linked to the following organization: Indian Health Service HQ Office of Quality.

To create a new account:

Visit IHI.org and click "Login/Register" from the grey menu in the top, right hand side of the page

Click the blue button that says "Create Account"

Follow the prompts

Select "Organization" as your organization - Indian Health Service HQ Office of Quality. Please make sure you select from the dropdown menu. Do not type the Organizations name.

To edit your existing account:

Visit IHI.org and click "Login/Register" from the grey menu in the top, right hand side of the page

Log in.

Please note: we made updates to our website on Oct. 7, 2019. If this is your first time signing in since the updates were made, please reset your password.

Once you have logged in, click "My IHI" from the grey menu at the top, right hand side of the page. This will bring you to your IHI portal.

Click on "My Account" to be brought to your profile

To update your organization, click on the pencil icon next to your name in the light blue box.

Select "Organization" as your organization. Indian Health Service HQ Office of Quality

Once you have created and/or edited your account to reflect Indian Health Service HQ Office of Quality please e-mail Benjamin.Feliciano@ihs.gov with your full name and IHS.GOV e-mail address.

Accessing Open School Courses

Once you are on IHS OQ Open School roster, you can continue to the Open School courses at www.ihi.org/OnlineCourses

If you are prompted to purchase a subscription when they try to begin, you should log out and log back in. That should trigger the IHI website/system to look at your member list and add their access.

Native American Cancer Education Leadership Institute

The goal of the institute is to expand the network of CHR's, health educators, tribal leaders, and others who work with Native American communities committed to comprehensive cancer control. Each session is unique, so please plan to attend as many as you are able to. All sessions have all been approved for CHW Continuing Education Units by the State of New Mexico Department of Health. This virtual event will take place over four sessions as follows:

Tuesday, June 15th 9:30-11:00 AM

Registration: <http://db.aastec.net/naceli/index.html>

Basic Tobacco Intervention Skills Certification for Native Communities

August 24 - 26, 2021

1:30 pm – 3:30 pm (MT) Each day

Community Asset Mapping: Building on the Strength of Our Communities to Improve Health

This training for public health workers, clinicians, and community members/leaders looking to find better ways to identify and build on the strengths of our clients and communities to improve health. You will gain concrete skills in "asset mapping" that will allow you to teach this to others and to incorporate asset mapping into your healing work.

Date: May 19, 2021

Time: 1:00-3:00 PM (MT)

Register: <https://docs.google.com/forms/d/e/1FAIpQLSdPk37J-Wp-FXqrNPX78Oskj98VTS5B78KSBsJb7eknYvjZ7A/viewform>

Circle of Resilience Virtual Conference: Empowering Indian Country in a Virtual World

This year, we will feature high priority issues such as COVID-19, mental health disparities, community outreach, Missing and Murdered Indigenous People (MMIP), and policy directly affecting American Indian and Alaska Native (AI/AN) populations in urban areas.

Date: May 25-27, 2021

Time: 10:00 AM- 3:00 PM (MT)

Register: <https://mailchi.mp/ncuih/ncuih-2021-conference-update?e=6c26bd94f0>

2021 Community Health Assessment Institute (CHAI): The UNM Center for Native American Health (CNAH) and partners from the Albuquerque Area Southwestern Tribal Epidemiology Center are pleased to announce the 2021 virtual Community Health Assessment Institute (CHAI). The CHA Institute is an opportunity for community health professionals to gain knowledge and skills in tribal community health assessment. We will explore Indigenous core values in setting forth a vision of a “healthy community” and how tribes can mobilize their vision to build partnerships, make decisions, protect their data, and much more. Open to all American Indian Tribes, Pueblos & Nations. This event will kick-off with an orientation on Friday, May 21, 2021 and the Institute will be from 9am to 12pm (MDT) daily, May 24-27, 2021. Registration is now open, and we are requiring that people register in teams. Details about registration, forming a team, and CHAI content can be found here: <https://hsc.unm.edu/cnah/chai/>.

Dermatology for Primary Care: What You Need To Know

Please join us this summer at UNM Dermatology as we present our first medical education VIRTUAL conference geared to primary care providers in New Mexico and beyond!

We know that access to Dermatology in our state is difficult– it is one of our primary goals in the UNM Dermatology Department to train and retain providers. However we also recognize how important it is to partner with you to extend your knowledge base and confidence diagnosing and treating your patients with skin problems in your local community.

Our content will feature interactive, case-based and engaging sessions led by experienced faculty on skin conditions, diagnosis and management in the primary care setting, including general, pediatric and urgent care dermatology.

We welcome students/trainees as well as providers with a broad range of backgrounds, such as family & community medicine, internal medicine, pediatrics and others. We will also have opportunities for self-assessments and networking.

Date: Saturday June 5, 2021

Time: 8:00 AM-1:00PM (MT)

Register: https://secure.touchnet.com/C21597_ustores/web/product_detail.jsp?PRODUCTID=2926&SINGLESTORE=true

Dermatology TeleECHO Program- Earn no-cost to you CME/CEU credits!

Dermatology ECHO will improve access to dermatologic care by providing evidence-based approaches and training to primary care providers. Education will consist of brief lectures and case discussion with Board Certified Dermatologists.

Target Audience: Physicians, Advanced Practice Providers, Pharmacists, RNs, Medical Assistants, and other healthcare professionals.

Date: The Second and Fourth Friday of the Month

Time: 12:00 PM-1:00 PM (MT)

Register: <https://ctsctrials.health.unm.edu/redcap/surveys/index.php?s=489JJ4XP3E>

Grow Your Competence! Domestic Violence - Brain Injury Training for Behavioral Health Providers - Free CEUs.

After much anticipation, we are excited to extend a formal invitation to join the Domestic Violence Brain Injury Care Network Project ECHO sessions. These six, one-hour sessions will be scheduled every other Friday throughout April, May, and June. Attached is our official invitation letter which explains the goals of the care network, the structure of Project ECHO, discussion topics, and the session dates and Zoom information. The one hour sessions are free and include free CE for those who complete the CE survey and email it to DVBICare@braininjurynm.org<mailto:DVBICare@braininjurynm.org>.

The sessions are scheduled for the 2nd and 4th Fridays of the month, between April and June, beginning April 9th and concluding June 25th. Each session will last 1 hour from 12PM-1PM. If Fridays at noon do not work for you, please let us know possible other times that would work. We are looking into scheduling an alternative session time for those unavailable at this hour.

Calendar invites for all six sessions, complete with Zoom information, will be sent out shortly. An RSVP is very much appreciated; however, it is NOT necessary for participation. Everyone is welcome to participate to the fullest capacity they can offer.

Attendance to all six meetings, though strongly encouraged, is not required for participation and contribution to the DVBI Care Network.

Dates: The six sessions will be on the second and fourth Friday of each month in April and running through June. The dates are:

April 9th & 23rd, May 14th & 28th, June 11th & 25th.

Time: 12:00 PM-1:00 PM (MT)

NMPHA Pre-Conference Workshop and Annual Virtual Conference

NMPHA is very excited about our 2021 Annual Conference May 20-21, 9 AM- 3:30 PM. As part of our preparation, we have joined with NMDOH, the NM Alliance of Health Councils and the Health Equity Council to celebrate National Public Health Week including social media, a free multi-session Pre-Conference Workshop Wed. April 7th, 9 - 12, and a Vaccine Town Hall Thu., April 8th, 12-1. The Vaccine Town Hall will be held on NMDOH Facebook Live with Dr. Laura Parajon, Deputy Director of NMDOH, especially for public health practitioners and students.

Actions to take:

1. **Register for our free April 7th Pre-Conference Workshop** at: <http://nmpha.org/>
2. **Submit questions for the Vaccine Town Hall** to nmpha.mail@gmail.com
3. **Moral Foundations Self-Assessment** <<https://go.unc.edu/MFsurvey-NewMexico>> to complete this short Moral Foundations Self-Assessment (just 8 min) to help you see how six different foundational values resonate with you and to identify which values you might want to learn more to help you communicate with others. The survey will also inform the Effective Public Health Messaging session at the Pre-Conference Workshop (10:30 - Noon)

NMPHA Virtual Conference

Date: May Friday May 20 and Saturday May 21, 2021

Time: 9:00 AM- 3:30 PM (MT)

Register <http://www.nmpha.org/event-4157803>

1/4/01 Trusted Voices Around New Mexico: SEARCHING FOR MOTIVATING VOICES FOR COVID-19 VACCINE MESSAGING

We need your help to find trusted voices at all of our Albuquerque Area federal sites to speak to their community residents about the importance of taking the COVID-19 Vaccine. This is a great opportunity to authenticate our messaging from our providers and workers at your facility during this pandemic to our communities.

- It will only take up to (30) minutes of your time and you would be virtually recorded over Zoom by the NMDOH Contractor(s).
- You may contact us to send in your nomination here at Trusted Voices

Once we sign you up as a nominee, you will be contacted for further instructions, scheduling, etc. via email.

- View a sample of one of the first recordings here: <https://www.togethernm.org/trusted-voices-nomination/>

** Sponsored by the NM Department of Health social media marketing team at no cost to us.

Individuals can nominate themselves and as well as several others. After they complete form at link above, they will receive automated emails to gather additional information and schedule the zoom call.

Any questions please contact:

Section 10: Funding Opportunities

NCOA is partnering with Lyft to provide access to reliable, affordable transportation to older adults who need a ride to get their COVID-19 vaccine.

Lyft has provided ride codes with a value of up to \$25 each to travel to and from COVID-19 vaccination appointments for both the first and second doses. This effort is part of Lyft's [Universal Vaccine Access campaign](#), which is mobilizing a coalition of partners to provide access to rides to and from vaccination sites across the country.

How to use the NCOA-Lyft vaccine ride codes

The Lyft promo codes we're offering can be used for a roundtrip ride for each dose of the COVID vaccine. Each code below covers up to \$50 per round trip (\$25 to the vaccine appointment, and \$25 back home). **There are no location restrictions, and the vaccine ride codes are valid through December 31, 2021.**

- Dose 1 Code (to and from their appointment): **SENIORVAX1**
- Dose 2 Code (to and from their appointment): **SENIORVAX2**

Learn more about how to set up an account and request a ride: <https://www.ncoa.org/article/ncoa-and-lyft-help-older-adults-get-rides-to-their-covid-19-vaccine>.

All older adults who use the Lyft codes will be required to follow Lyft's Health Safety policies, which include staying home if they are sick, wearing a mask, keeping the car and their hands clean, sitting in the back seat, and keeping the car windows open when possible.

To help ensure you are well equipped to help your older adult clients, NCOA is hosting a free informational webinar about this offer on **Monday, May 24 at 2 pm ET** to walk through the details. Get the log-in details at: <https://www.ncoa.org/article/how-to-help-older-adults-get-a-ride-to-the-covid-vaccine-through-the-lyftup-program>.

On Wednesday, May 12, the FCC opened its Emergency Broadband Benefit to households nationwide. It is a program to assist families and households with affording Internet services during the COVID-19 pandemic. The Department of Information Technology shares this information with employees to help spread the word to as many qualifying New Mexicans as possible. Please pass along this information to friends, family, and neighbors.

Eligible households will receive a discount of up to \$50 per month for broadband service from participating providers and up to \$75 per month for homes on qualifying Tribal land. The FCC program also provides a discount of up to \$100 to purchase a laptop, desktop computer, or tablet from participating. You can find a list of participating providers in New Mexico on the FCC website.

A household is eligible if they meet one of six required criteria. For more information on the requirements, the participating providers, and details on the three ways to apply visit, <https://www.fcc.gov/broadbandbenefit>

FY 2021 Notice of Funding Opportunity

The Office of Minority Health (OMH) at the U.S. Department of Health and Human Services administers grant programs to support projects that implement innovative models to improve minority health and reduce health disparities.

OMH has released the following notice of funding opportunity (NOFO) for which applications are now being accepted.

Announcement Number: MP-CPI-21-001

Opportunity Title: Family-Centered Approaches to Improving Type 2 Diabetes Control and Prevention

Award Amount: Up to \$500,000

Estimated Total: \$1,500,000

Application Due Date: July 13, 2021, 6:00 PM ET

This notice solicits applications to fund projects that test interventions to identify family-centered factors that promote self-management and prevention of Type 2 diabetes among racial and ethnic minority and disadvantaged families who have a family member(s) aged 12 and older with Type 2 diabetes. Through the testing of family-centered interventions, OMH expects the Family-Centered Approaches to Improving Type 2 Diabetes Control and Prevention initiative to identify specific family-centered factors (e.g., structural, instrumental, functional, cultural, and social needs) that affect patient self-management of diabetes (e.g., physical activity, healthy nutrition) and family members' health outcomes. The target population for the intervention is racial/ethnic minority and disadvantaged families with a family member(s) aged 12 and older with Type 2 diabetes. For the purposes of this notice, "family" also includes persons who may live in the same household as the individual with Type 2 diabetes.

[Learn more about this NOFO and how to apply.](#)

A technical assistance webinar for potential applicants will be held Thursday, May 20, 2021, from 3:00-4:00 PM ET. [Click here to register for the webinar.](#)

Follow us on [Twitter](#) and like us on [Facebook](#) @MinorityHealth to learn more about our resources, healthcare tips, conferences, events and more.

Emergency Rental Assistance Program

Doña Ana County received a \$9.3 million grant from the U.S. Department of the Treasury, Emergency Rental Assistance (ERA) to assist local residents who have been impacted by COVID-19. This money is available for county residents including those within the municipalities of the cities of Las Cruces, Sunland Park and Anthony, the Village of Hatch, and the Town of Mesilla. The grant covers rent and utility payments. It does not cover mortgage payments. Both renters and landlords can take advantage of this grant. There are specific criteria for the funding. Households with an income that does not exceed 80 percent of area median income as defined by the U.S. Department of Housing and Urban Development (HUD) are eligible. That means \$43,900 annual income for a family of four. Proof of financial hardship due directly or indirectly to the COVID-19 pandemic is also required. This could be proof of unemployment insurance or loss of income, or other financial hardship that threatens the household's ability to pay rent or utilities.

Documentation and Information Located at: <https://www.donaanacounty.org/rent-utilities-assistance>

5/11/20 **Federal Communications Commission** (FCC) is currently accepting applications for the COVID-19 Telehealth Program. Information can be found on the program's main landing page: <https://www.fcc.gov/covid-19-telehealth-program>. IHS has a website describing the program and lists Tribal entities as being eligible: <https://www.ihs.gov/oit/ruralhealthcareprogram/>

Eligibility is a site-by-site determination. The health care provider has to be public or non-profit, and in one of these categories:

(1) post-secondary educational institutions offering health care instruction, teaching hospitals, and medical schools; (2) community health centers or health centers providing health care to migrants; (3) local health departments or agencies; (4) community mental health centers; (5) not-for-profit hospitals; (6) rural health clinics; (7) skilled nursing facilities; or (8) consortia of health care providers consisting of one or more entities falling into the first seven categories.

An interested entity has to submit an FCC Form 460 to USAC to determine eligibility (information is in the FAQs). Sites that currently participate in RHC have a 460 on file and do not need to do it again.

There is a lot of information on the above pages, but the FAQs also have helpful information: <https://www.fcc.gov/covid-19-telehealth-program-frequently-asked-questions-faqs>

5/1/20 The Connect2HealthFCC Task Force applications are now being accepted for the Federal Communications Commission's newly-established \$200 million COVID-19 Telehealth Program. **Applications can be submitted online at <https://www.fcc.gov/covid19telehealth>**. In response to the pandemic and as part of the FCC's implementation of relevant portions of the CARES Act, the new Telehealth Program will help health care providers offer critical connected care services to patients at their homes or mobile locations. The Program affords immediate support to eligible health care providers responding to the pandemic by providing funding for telecommunications services, information services, and devices necessary to deliver critical connected care services.

General Information, including a video explainer: <https://www.fcc.gov/covid19telehealth>. The Commission will update this webpage periodically.

- **More application details:** [Guidance on the COVID-19 Telehealth Program Application Process](#) (FCC Public Notice)

Report and Order creating the Program: <https://www.fcc.gov/document/fcc-fights-covid-19-200m-adopts-long-term-connected-care-study>

If you have additional questions related to the Program, you may e-mail EmergencyTelehealthSupport@fcc.gov

Prizes: \$500 individual submission, \$1000 group submission, total of approximately 25 prizes

I Strengthen My Nation: American Indian and Alaska Native Community Projects Created by Youth

Community Project Intervention Challenge: We invite youth to develop plans for a project that they believe would augment resilience to substance abuse in communities, submitting to us a plan for the project and video description. Click Here for more information: https://nam10.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.drugabuse.gov%2Fresearch%2Fnida-research-programs-activities%2Fnida-challenges-program%2Fstrengthen_my_nation%2Fcommunity_projects&data=04%7C01%7Ckathleen.kelly%40colostate.edu%7C963242837441462432f308d8fac252b1%7Caf58802ff7a4bb1ab21367ff2ecfc8b%7C0%7C0%7C637535059835160482%7CUnknown%7CTWFPbGZsb3d8eyJWljoiMC4wLjAwMDAiLCJQIjoiV2luMzliLCJBTiI6IjEhaWwiLCJXVCi6Mn0%3D%7C1000&sdata=nXulNZ%2ByUAp2cgwvC%2Fjwqd8Rnf6BM9sVngUve5L2wqk%3D&reserved=0

for more detail and submission requirements.

Prizes: \$2,000-\$10,000 per entry, total purse of \$85,000

Dates and Deadlines for both challenges

- * Submission Start: April 8th, 2021
- * Submission End: July 7th, 2021
- * Winners Announced: July 30th, 2021

NW NARCH Tribal Researchers' Cancer Control Fellowship Program is accepting applications are now available for the June 6-18, 2021 Fellowship Program

The overall goal of the Tribal Researchers' Cancer Control Fellowship Program is to reduce cancer incidence and mortality and improve cancer survival in tribal communities through the efforts of AI/AN researchers. This fellowship program offers training and mentorship to prepare researchers to design and implement cancer-related research projects within AI/AN communities. Costs associated with the training, including travel, will be covered.

Who can apply:

- American Indian/Alaska Native graduate students and researchers with a demonstrated interest in cancer prevention and control.

Accepted Fellows will:

- Attend a two-week training in June 2021 and one week follow-up training in the fall (*virtual training sessions will be provided if the COVID-19 pandemic persists*)
- Receive peer and career mentorship to develop and implement cancer control projects.
- Be eligible for paid internships.
- Be connected to a network of experts in cancer control and prevention in Indian Country.

For more information contact Ashley Thomas at athomas@npaihb.org or 503-416-3293.
